

# Bee Friendly Farming® Certified Application Checklist

It should take less than 45 minutes to fill out and submit online if you use the checklist below to prepare the uploads you will need:

- 
- Audit files from other accepted certifications (ACO, Aus-Qual, BDRI, NCO, OFC, SXC, among others). Uploading these files will allow you to skip to the end of the form. If your certification is not found in this list, please reach out to [info@beefriendlyfarming.org.au](mailto:info@beefriendlyfarming.org.au) for more information.
  - A list of all known plant species on your farm that provide floral resources (forage) for bees and other pollinators.
  - Images of your forage habitat.
  - Images of your clean water sources.
  - Images of potential bee nesting habitat.
  - Pest management protocol, including application conditions, drift management, etc.
  - Payment via Paypal or credit card on checkout.
  - Proof of Farm Chemical Users' Certificate or any pesticide certification class you have taken in the past 3 years (optional).
  - Digital farm map (extra credit).
  - Images of other ecological infrastructures, e.g. patches of semi-natural habitats, including shelterbelts, grassland and forest, distributed throughout productive agricultural landscape, providing nesting and floral resources (extra credit).
  - Results of a regionally appropriate habitat assessment (extra credit).

---

**You are ready to fill out your BFF CERTIFIED application. Be sure to allow the form access to your location when prompted, and enter your farm's primary phone number to make future compliance forms much easier; this information is how you will retrieve your application data.**
