

Bee Friendly Farming[®] Tree Grant Proposal

Your details

Name:

Email:

Phone:

Farm or Property Name:

Farm or Property Website:

Farm or Property Bio

1–2 paragraph overview of farm activities & interest in Bee Friendly Farming.

Farm or Property Address

GPS coordinates accepted if more accurate than address.

Street Address Line 1:

Street Address Line 2:

Suburb:

State:

Postcode:

Land Ownership

E.g. owned or leased?

Project details

Number Of Trees – Greater than 2m in height:

Proposed Tree Species List

Using indigenous species to local area.

Project Start Date

Starting with site preparation (dd/mm/yyyy)

Project Start Date

Ending with all trees planted (dd/mm/yyyy)

Planting Project Description

Describe the area that will you be planting. Why have you selected this area?
How will you plant the trees? Who will be involved?

Site Preparation

How will you prepare the area for planting?
(e.g., weed control, ploughing, ripping, matting, crash-grazing)

Project details continued

Area To Be Planted – Number of hectares:

Area to be planted

Indicated on aerial image of property.

File(s) attached separately

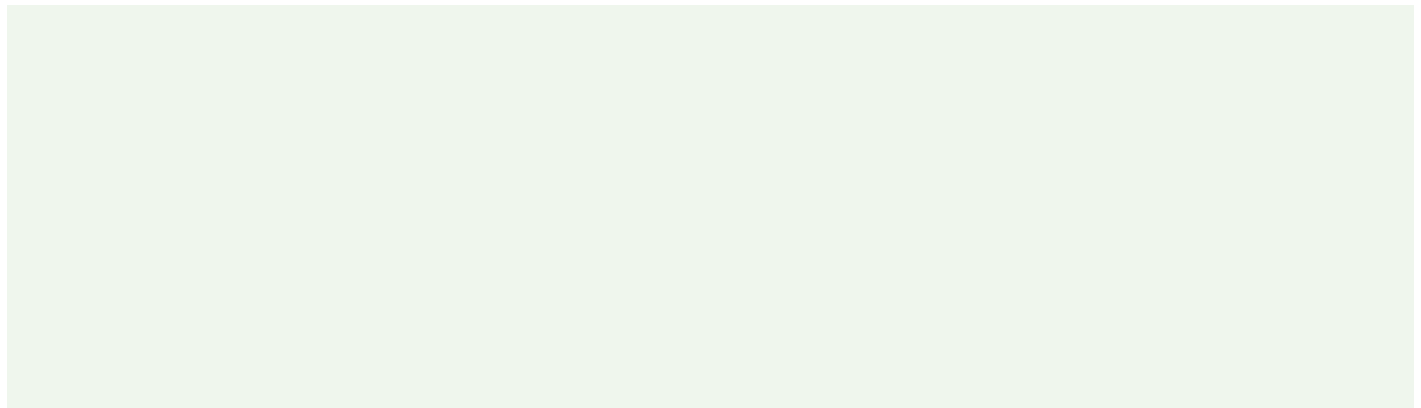

Photos of Planting Site

If possible, establish photo points from which to take photos over time.

File(s) attached separately

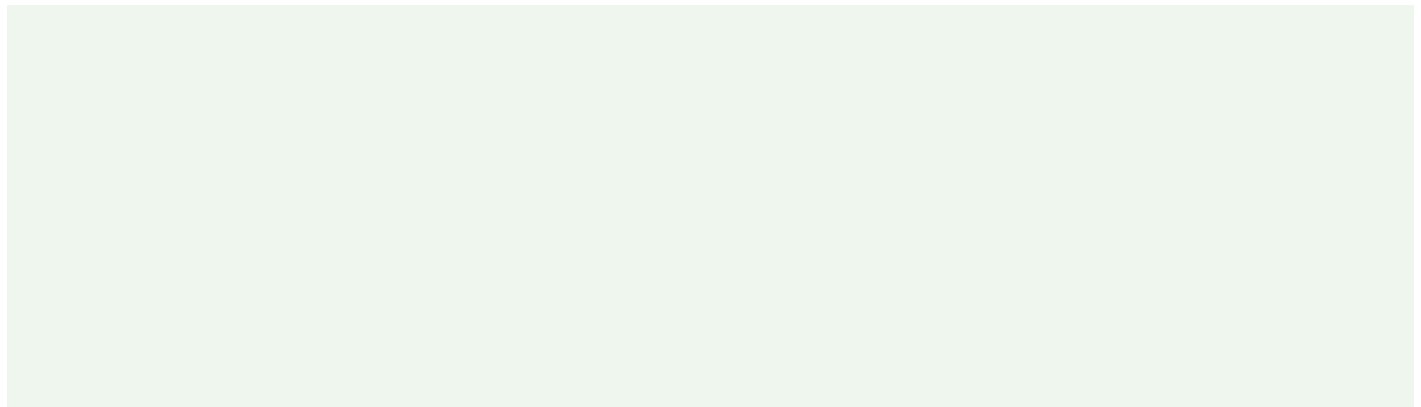

Please describe the ecological benefits expected from this planting

e.g. habitat for birds and other native animals, food sources for nectar-feeding birds and insects, weed suppression and competition, etc.

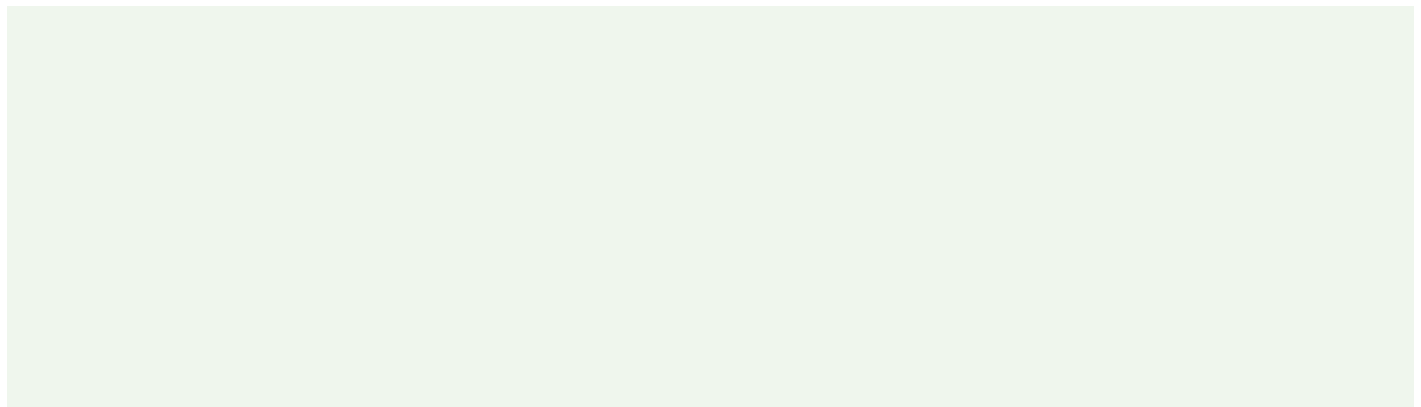

Please describe the community benefits expected from this planting

e.g. engagement with local volunteers, clubs, schools, environment groups, farmers.

What risks does your planting face, and how will you mitigate them?

e.g. fire, livestock, pests, social conflict, land ownership change, etc.

Project details continued

How will you measure the survival rate of the trees?

e.g. number of stems surviving after 12 months, 2 years, 10 years, photo points, stem diameters, etc.

How many years will you maintain the trees?

e.g. conducting weed control, vermin removal, replacement of dead trees, fencing and livestock exclusion.

Will any of these trees be harvested?

If so, please briefly describe sustainable silviculture practices, including harvesting cycle, thinning and/or coppicing.

Tree Planting Experience

Please outline any past experience you have with tree planting at this property or elsewhere.

Project details continued

Co-Financing

Please outline any other funding sources you have for this tree planting activity.

Note: this grant would make a contribution of \$1 per tree (AUD).

How much funding are you requesting?

Grants will be paid on a per tree planted basis at \$1 per tree (AUD).

Additional supporting material

Please provide any additional documents you'd like to share to assist with this application (eg. maps, research papers, farm brochures).

File(s) attached separately

Submit your proposal

Agreement

If successful, I understand and acknowledge that the grant will be paid following receipt of: specific details defining the boundaries of the planting in a KML file, a paid invoice detailing eligible/agreed trees (i.e. Bee Friendly), photographs showing the nominated site planted with trees.
